EXPERTISE

- React.js
- HTML5, CSS3
- JavaScript
- Tailwind CSS, Bootstrap
- Git, GitHub
- Responsive Design
- API Integration

SOFTWARE KNOWLEDGE

- Visual Studio Code
- Git & GitHub
- Chrome DevTools
- Figma
- Firebase

PERSONAL SKILLS

- Problem Solving
- Team Collaboration
- Communication
- Time Management
- Quick Learner

ADDITIONAL SKILLS

- Data Analysis Basics
- Machine Learning Fundamentals
- Content Strategy Basics
- Digital Tools and Documentation

PROFESSIONAL SUMMARY

I am a skilled Front-End Developer specializing in React.js, with experience in creating responsive, pixel-perfect designs from Figma, PSD, and other formats. I bring a strong foundation in HTML, CSS (Bootstrap, Tailwind), and JavaScript

PROJECTS

- **QuickTutor – Online Learning Platform**

Technologies: React.js, HTML, CSS, Tailwind, JavaScript
Developed a responsive platform for students and tutors, including an admin panel for managing courses, users, and learning content.

- **Gadget E-commerce System Improvement**

Improved an existing e-commerce system by solving navigation, filtering, and checkout issues while developing a responsive, modern UI and an enhanced admin panel.

- **Diamond Price Prediction (ML Model + Web App)**

Technologies: Python, scikit-learn, pandas,Flask
Performed exploratory data analysis on 54K-entry diamond dataset and built a machine learning model to predict diamond prices. Developed a simple web interface for real-time prediction.

EDUCATION

Bachelor of Science in Computer Science and Engineering
International University of Business Agriculture and Technology-Bangladesh
2022 - Present
